Application: Foliar Spray and Soil Application

NanoPhos® uses Aqua-Yield's Enhanced NanoShield Delivery™ to deliver phosphorous directly to crops. NanoPhos offers highly-efficient phosphorous delivery where soil conditions limit plant uptake. Applying NanoPhos ensures a strong root system and will result in faster plant growth and increased flowering and fruit set.

Why Use NanoPhos?

- Speeds up plant growth, seedling and sprig establishment
- Increases root mass and plant resilience
- Improves fruit set and size
- Increases stem strength and promotes tillering
- Increases uptake of other nutrients
- Improves stress tolerance
- Promotes root growth and tillering

Application Rates:

Apply NanoPhos 4 fluid ounces (118.2 ml) to the acre (300 ml per hectare). Use 1 - 4 times a month in addition to current fertility programs.

Small Acre Application Rates:

- 1 oz per 5 to 10 gallons of spray
- 0.5 oz per 5,000 square feet
- Apply 1 to 4 times monthly

General Use Directions: Add NanoPhos in sufficient water to ensure adequate crop coverage and mix well before adding other products and applying. NanoPhos and other Aqua-Yield® products are intended to supplement any fertilizer program.

Storage and Handling: Do not store product in direct sunlight for extended periods of time. Keep container sealed when not in use. Warning: Do not swallow. Spray from this product may act as an irritant. Avoid inhalation and contact with eyes, skin and clothing.

KEEP OUT OF REACH OF CHILDREN

Important: read before using

Read the entire directions and the warranty disclaimer and limitation of liability before using this product. If terms are not acceptable, return unopened product. By using this product, user/buyer accepts the following warranty disclaimer and limitation of liability. Warranty disclaimer and limitation of liability manufacturer and seller warrant that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in strict accordance with the directions for use. Tests have not been conducted on all varieties of food crops and plants, possible use or application with other products, the manner of use or application, or under all conditions. Manufacturer and seller make no other express or implied warranty of merchantability or fitness for a particular purpose. Where permissible, it is manufacturer and seller's intent to limit any liability for special consequential or incidental economic damages to refund or purchase price or replacement of product, at manufacturer's or seller's choice. Manufacturer and seller disclaim any liability for compensatory or other damages arising out of any use contrary to label directions or shipping of product. Use contrary to label directions is not permitted. User assumes all responsibility for damages caused to crops when exceeding application rates.

Disclaimer

If applied with a fungicide or pesticide, it is the users responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test is recommended.

Conditions of Sale

Seller warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in accordance with directions under normal use conditions. Crop Injury, product use ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Seller. In no case shall Seller or it's distributor be liable for consequential, special or indirect damages resulting from the use, handling, or shipping of this product. All such risk shall be assumed by the buyer /end user. Seller makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
